Ethan Escareño Rosano

Reynosa, Mexico
0448991053009
ethan.rosanoo@gmail.com
https://medium.com/@ethaanescareo

Mexican Developer working with Javascript and Python, working on whatever i get the chance to work on, following a simple principle "feel proud of my work"

Im always like to think that im the "eternal noob" wich is always learning stuff and looking for exiting challenges.

Technical Skills

Likes: javascript meteor node.js handlebars.js mongodb stripe-payments jquery html css semantic-ui materialize twitter-bootstrap-3 reactjs pug coffeescript graphql ecmascript-6 meteorjs vuejs

---

Experience

FullStack MeteorJs Developer – Anactionplan
meteor, node.js, semantic-ui

StripeJs integration. Facebook SDK integration and modules creation Digital Ocean Deploys SSL compose.io maintain.

Right now on AAP i dont have such an "important" role, im just a Software developer II with some important roles and not so importants.

https://eap.anactionplan.com

FullStack Developer – US Student Loan Center   *Jan 2017 → Current*
python, django, node.js, meteor, sql, postgresql, javascript, mongodb

Working on internal projects using techs like Django and MeteorJS.

Feels Weird to switch on the same day to NoN-SQL to SQL in 5mis

---

Freelancer Web Developer – Edthena   *Jan 2017 → Current*
vue

Working on migrating a whole Front End application from Blaze to Vue.js

Pending to migrate part of the backend to use GraphQL

Meteor Mentor – CodeMentor.io   *Nov 2016 → Feb 2017*
meteor, node.js, reactjs, spacebars

Im a meteor mentor on codementor.io.

Since november until February (not active ATM).

I had written some quick tips on node and Meteor.

Also i'm writing tutorials for the platform.

https://www.codementor.io/ethaan

FullStack Developer – Digital First Media   *Jun 2016 → Jan 2017*
reactjs, redux, javascript, meteor, mongodb, microservices

Working mostly on internal projects,

Mainly focused on introduce new Techs like redux, grapqhl into my current team projects.

Refactors and migration to old code bases are my responsibilities too

---

FullStack Web Developer – Pathable   *Aug 2016 → Dec 2016*
reactjs, ecmascript-6, javascript, mongodb, redux, redis, meteor

Working on the new app for https://pathable.com/.

Which is build from scratch using the new Technologies such as React, ES6 and Meteor.

Developer – Pathable   *Aug 2016 → Nov 2016*
meteor, javascript, redux, reactjs, redis, mongodb

Integrating (small - medium) changes into the app, refactors and fixing issues

---

CTO – Dobox.io   *Sep 2015 → Aug 2016*
meteor, javascript, nodejs

Github Repo. Digital Ocean Deploys SSL support. SEO Backend Code Stripe Integration Trello manager Writte integrations

Basically on this startup im in charge of the managment of 3 other developers, my title is CEO but i like to think more that im a Lead Developer.

my day to day task was first take care of the trello tasks, then focus on a day-target.

Right now dobox.io. its outside in production and its still looking for inverstors, the develop on this app is low now.

Freelancer – Meteor   *Nov 2015 → Apr 2016*
meteor, javascript, segment-io

Im working as a freelancer for the MeteorJs company. **NOTE** im not part of the MDG team, i dont even had contact with them.

im working mainly peer-to-peer with Dan Ahmadi.

and im working only on the frontpage (meteor.com).

until now, my most important work has been:

finish the workflow of the Galaxy signup procces. integrate an admin dashboard for the Meteor Partners. some tweaks with segment.io

---

Backend And integration Developer – Parley   *Dec 2015 → Feb 2016*
meteor, javascript, materializecss, materialize, node.js, docusign, docx, pdf.js

My main responsability on Parley is take care of integration.

Until now i had the responsability of create a MeteorJs wrapper for the docusign API. integrate a drag and drop functionality for .docx and .pdf files into a quill.js editor

on this job im working with a super efficient team of developers that work for a company named useful.io.

Backend Developer – Tippitime   *Jul 2015 → Dec 2015*
nodejs, meteor, dhtmlx, bootstrap

On this job I was part of the backend team (team of 4), and into my responsibilities, the most important were.

Security Scalability integration with dhtmlx calendar Facebook integration

---

Education

IT Engineer – Universidad Tecnologica de Tamaulipas   *2011 → 2015*
php

My pass under college was not a big deal, to be honest i didnt care about study, i was just a bad student

My programming classes was about PHP and i just find it boring.

it was until the last 4-5 months of college when my good friend Javier and me find that developing can be fun we try Objective-C, we try Java, but then we find Javascript ,Nodejs and then MeteorJs and get attract into programming

---

Projects & Interests

Teamspeak BOT – https://github.com/Ethaan/teamspeak-bot   *Feb 2017 → Current*
meteor, mongodb, javascript, reactjs, teamspeak, node.js, cron

2 days of work repo , when i was fighting on a Tibia WAR, i have the necessity to use a tool to track who was online from my enemies, so i made this bot in order to have that (because i didn't want to pay 18 euros/m)

NodeJS Tibia API – https://github.com/Ethaan/nodejs-tibia-api *Jan 2017 → Current*
node.js, javascript, teamspeak, web-scraping

Simple Scrapper look a like API to get tibia related data writte on node.js

---

Codigo en tu idioma – https://github.com/Ethaan/codigoentuidioma *Jan 2016 → Current*
html, metoer, javascript, mongodb

Web Page blog type for Spanish speakers

Funder

Slack Chat – https://github.com/anactionplan/slack-chat
javascript

Dec 2015 → Current

Slack Chat made for meteor

collaborator

React Map – https://github.com/Ethaan/react-map
javascript

Jul 2015 → Current

Google Maps V3 + Reactjs

Creator

Instafeed Meteor – https://github.com/Ethaan/instafeed-meteor
coffeescript

Apr 2015 → Current

MeteorJs Wrapper for instafeed

Creator

Simple FS Demo – https://github.com/Ethaan/simple-uploadFS
html, meteor, javascript

Feb 2015 → Current

Demo about how to use FSCollection Package

Creator

MeteorJs Map – https://github.com/Ethaan/Meteorjs-sample-map
javascript, meteor, google-maps

Feb 2015 → Current

Simpe map using MeteorJs and GoogleMaps v3

Creator
